SPECIALIZED BUILDING MATERIALS  
*"Building Solutions You Can Trust"*

As the manufacturer of the world's original stone coated metal roof tile, we have used our expertise and experience to develop an alu-zinc roof tile with a coating of genuine natural stone at a price you can afford.

We believe that Fortiza® is the only roof tile which delivers this level of quality and affordability.

### We Will Work With You...

...To ensure that your new roof is exactly how you want. From choosing the right colour, to making sure it's delivered on time and on budget.

At Space & Style, we believe in partnerships to create a beautiful roof within your budget.

Your satisfaction is the most important thing to us, so we'll make sure we get it right.

# Secure and Easy Installation

Because Fortiza® is a bigger tile and easier to work with, it is one of the quickest roofs to install. This means less labour costs and a shortened build time.

In addition, with each tile secured to the roof battens through the tile to the left, right, two tiles above and two tiles below, a Fortiza® roof is incredibly secure against both the weather and intruders.
