WHY IT'S UNIQUE

ALU-ZINC STEEL

All Asili roof products are manufactured from alu-zinc steel which is shown in tests to last 6-9 times longer than ordinary galvanised steel roofing products. This is achieved by a unique process which protects the steel core with zinc, which is itself protected by an aluminium barrier. As a pioneer in using alu-zinc steel, Asili has unrivalled pedigree in long lasting steel roof tile manufacturing.

NATURAL STONE

Asili roofing tiles are coated with natural stone chips, volcanically formed and taken from quarries with long history of superior performance across the world. These coatings add natural beauty to the roof and a hard layer of protection from the harsh African weather. Being of natural stone, the vibrant colour is protected against the extreme UV of the African sun and will never change.

COATING TECHNOLOGY

Developed using innovative technology, Asili leads the way in design, quality, performance and durability. Our natural stone chips are embedded deep in our own patented basecoat and sealed in a special acrylic overglaze to ensure they stay permanently fixed on the tile. The finished tiles are then slowly baked to ensure durability.

OUR BENEFITS

SECURITY

An overlapping Asili roof tile is secured to the two tiles on either side, the above tile, the below tile and the rafter - making an Asili roof the most secure against intruders and extreme high winds.

REDUCED RAIN NOISE

The Asili stone coating softens the sound of rain so you get a good nights sleep

LIGHTWEIGHT

At only 7.0kg/m², Asili roof tiles can save considerable costs in the roof structure (rafters, trusses, battens etc.), foundations and transport. One ton of Asili tiles is equivalent to ten tons of clay or concrete tiles!

NO MORE DELAYS

If not available, your orders will be delivered in less than a week.

TESTING AND INSPECTION

Every Asili roof tile is inspected by hand to ensure consistent quality. We also test our Asili to ensure that they continue to perform better than any other metal roof tile.

FAST INSTALLATION

Quick installation times can lead to further cost savings in the construction of your home. Asili tiles are up to 10x faster to install, making your home weather sealed quicker.
