

# Water Proofing And Flat Roofing Done Right

Save on costly repairs and additional maintenance services by securing your home or commercial building from water leaks or damage using modern, innovative and trusted Bituminous Waterproofing Membranes (APP) from Space and Style.

## Properties

- ✔ Profiles: APP Regular, APP Sand Coated and APP Mineral Coated.
- ✔ Size: 1m x 10m roll.
- ✔ Thickness: 2mm and 4mm.
- ✔ Coverage: 9m<sup>2</sup> per roll.

## Product Benefits

- ✔ High resistance to extreme weather conditions.
- ✔ Excellent adhesion properties on the surface .
- ✔ High structural integrity because quality water proofing and flat roofing reduces the risk of structural failure.
- ✔ Healthier environment and durability of the structure due to lack of water leaks.

## Typical Applications

- ✔ Residential and Commercial Buildings.
- ✔ Flat roofs.
- ✔ Concrete roofs.
- ✔ Concrete Gutters.
- ✔ Terraces.
- ✔ Retaining walls.
- ✔ Basement waterproofing.

The Bituminous Waterproofing Membrane (APP) is applied onto the surface through torching.
