

Frametech Alternative Building Solution

ECO-BUILDING SOLUTIONS

START

PROCESS

FINISH

Frametech offers you a seamless integration of all processes involved in engineering, design and building with cold formed light gauge steel frames.

The design, engineering, detailing, quoting, production, planning, materials management, and structural steel frame production are all automated.

We offer turnkey building solutions using fibrecement construction boards to suit all building requirements.

Steel means **strength**; giving you the confidence that you are providing the best structure and best investment possible for your development.

Product Benefits

- ✔ Fast installation due to accuracy of structural members.
- ✔ High structural integrity because steel offers consistent strength all the way through the members.
- ✔ Labour savings due to light weight members and ease in handling the members .
- ✔ Reduced wastage.
- ✔ Low logistical costs.
- ✔ Environmentally friendly.
- ✔ Screws, nuts & bolts eliminate squeaks, nail pops and the need for repairs.
- ✔ Termites and fungus resistant.

Typical Applications

- ✔ Residential and home extension buildings.
- ✔ Affordable housing.
- ✔ Steel roof structures (trusses and battens)
- ✔ Institutional & military accommodation.
- ✔ Site camps & remote location construction.
- ✔ Administration building and offices.
- ✔ School and medical facilities.
- ✔ Modular & prefabricated buildings.
- ✔ Rapid deployment projects.
- ✔ Disaster relief & re- construction.
- ✔ Workshops , garages and Stables.
- ✔ Farm house and agricultural sheds.
