

The True Beauty of a Stone Coated Roof is the color

Safely clean your Stone Coated Roofing Tiles and Enjoy savings on additional home maintenance costs. Our team offers professional roof cleaning services to remove unsightly stains and restore the prestige of your home.

Product Benefits

- ✔ Restores the beauty of your home- Clears away black and green stains, bird droppings and animal droppings that cause discoloration of roof tiles improving overall appearance and increasing property value.
- ✔ Avoids costly repairs- Exposes hidden damage caused by mould, algae and moss in the cracks between tiles that cause leaks to allow you to do repairs in good time.
- ✔ Maximizes energy efficiency- By getting rid of algae, dirt and grime, energy consumption is reduced thus reducing utility bills
- ✔ Extends the lifespan of your roof- Gets rid of algae, mold, mildew, air pollutants, car exhaust and soot that cause damage to your roof from building up.
- ✔ Improves water collection quality- Unclogs gutters that would otherwise cause water damage.

How To Get Started

- ✔ Call us or send images of the dirty Stone Coated Roof to 0790 906 906
- ✔ Our professional roof cleaning team will get in touch to inspect your roof & determine if it needs cleaning

A cost estimate will be shared

- ✔ Our professional roof cleaning team will clean your roof utilizing safe methods on the roofing tiles and ensuring safety for all
- ✔ Our professional roof cleaning team will carry out checks to ensure the roof is in good shape

Enjoy the best service from your Stone Coated roof when professionally cleaned between 6-7 years.

We've got your NEW Replacement Roof

Restore the true beauty of your home or property by replacing your old roof, thatch roof, clay tiles roof or any other type of roof with Asili Stone Coated Roofing Tiles to increase its appeal and value significantly.

BEFORE

AFTER

WHY IT'S UNIQUE

ALU- ZINC MATERIAL

All Asili roof products are manufactured from alu-zinc steel which is shown in tests to last 6-9 times longer than ordinary galvanised steel roofing products. This is achieved by a unique process which protects the steel core with zinc, which is itself protected by an aluminium barrier. As a pioneer in using alu-zinc steel, Asili has unrivalled pedigree in long lasting steel roof tile manufacturing.

NATURAL STONE

Asili roofing tiles are coated with natural stone chips, volcanically formed and taken from quarries with long history of superior performance across the world. These coatings add natural beauty to the roof and a hard layer of protection from the harsh African weather. Being of natural stone, the vibrant colour is protected against the extreme UV of the African sun and will never change.

COATING TECHNOLOGY

Developed using innovative technology, Asili leads the way in design, quality, performance and durability. Our natural stone chips are embedded deep in our own patented basecoat and sealed in a special acrylic overglaze to ensure they stay permanently fixed on the tile. The finished tiles are then slowly baked to ensure durability.
